On the following pages, please explain why you think the Plan is unsound or not legally compliant, and set out any changes you feel should be made to the Plan to make the Plan sound or legally compliant.

**Please note:** As there will not normally be a subsequent opportunity to make further representations based on your representation at this stage, please include all the information, evidence and supporting information necessary to support/justify your representation and the suggested change(s) to the Plan. After this stage, further submissions will only be invited at the request of the Planning Inspector, based on the matters and issues the Inspector identifies for examination.

- 2.4.** If you consider the Maldon District LDP to be unsound or not legally compliant please explain why in the box below. Please be as precise as possible. Please also use this space for any comments in support of the LDP.

If the box is not big enough for your comments, please attach another page marked appropriately.

We object to policy S7 Prosperous Rural Communities as it is suggested the Rural Allocations DPD will identify land for a minimum of 420 dwellings, specifically identifying North Fambridge to provide 75 of the dwellings. The word minimum is not correctly emphasised as the level of development proposed is in fact the lowest level of delivery that may be expected from rural areas. The policy is also ambiguous in that it identifies North Fambridge for growth, which is not consistent with policy S8 that identifies the village as a 'smaller settlement' capable of accommodating very limited growth. To be consistent, policy S7 should indicate that it is appropriate for certain smaller and larger settlements that meet a basic criteria that are capable of taking the required new housing in rural areas. This policy should also recognise Latchingdon is a well-connected sustainable community of a good size which benefits from few environmental and physical landscape constraints making it viable to accommodate further proportionate growth.

**2.5.** Please explain in the box below what change(s) you consider necessary to make the Maldon District LDP legally compliant and sound.

Please be as precise as possible. Please explain why this change will make the Maldon District LDP legally compliant and sound. It will be helpful if you are able to put forward any suggested revised wording of the policies or supporting text.

If the box is not big enough for your comments, please attach another page marked appropriately.

It is contested that the LDP:

- In our view, to be compliant and sound, policy S7 and supporting text all need to be reconsidered to better reflect the need to support thriving rural communities and to ensure sustainable residential development in rural areas is encouraged in locations that are appropriate and that will have wider economic and social benefits to the village where development can be delivered. To be properly compliant, policy should recognise that Latchingdon, as a rural settlement and specifically as a 'larger village' rather than a 'smaller village' is clearly capable of accommodating residential growth which will contribute to the long-term health and vitality of the village and in terms of meeting local affordable and market housing requirements. Such a strategy would also yield additional investment in local community facilities that otherwise would never be delivered.

**2.6.** Do you consider it necessary to attend and give evidence at the hearing part of the examination? (tick as appropriate)

**No**, I wish to communicate through written representations

**Yes**, I wish to speak to the Inspector at the hearing sessions

**Please note:** The Inspector will determine the most appropriate procedure to hear those who have indicated that they wish to participate at the hearing part of the examination

**2.7.** If you wish to participate at the hearing part of the examination, please outline why you consider this to be necessary.

If the box is not big enough for your comments, please attach another page marked appropriately.

The above suggested changes to the emerging spatial strategy are a significant alteration to the currently emerging policy platform in the draft Local Plan and require appropriate detailed evidence and a robust case to be presented and debated. It is also important to feed in the results of the on-going community consultation taking place with Latchingdon Parish Council concerning the correct local planning policy framework for the village and in particular the provision of additional market, affordable and community facilities that inward investment is likely to generate.

**This is the end of Part 2 (Regulation 19 and 20) of the response form. Please complete this form for each representation you wish to make. You only need to complete Part A once. Please submit all of your response forms together.**
