The plan sets a minimum number of homes for Burnham on Crouch based on three identified sites. However, the Council's own analysis, prepared by independent consultants, indicates that the number of homes targeted is the maximum sustainable without significant infrastructure investment. It is not clear how additional homes above the minimum could be sustainable, especially taking into account any windfall development or other new homes created in the area outside of the allocated areas. This makes the proposition unsound.

Make the 450 target for Burnham on Crouch a maximum figure, to be reduced by any windfall development approved prior to plan implementation.
