- 2.4.** If you consider the Maldon District LDP to be unsound or not legally compliant please explain why in the box below.
Please be as precise as possible. Please also use this space for any comments in support of the LDP.

NIPK states (page 29) "Local plans should take account of climate change over the longer term, including factors such as flood risk, coastal change, water supply and changes to biodiversity and landscape. Inappropriate development in areas at risk of flooding should be avoided by directing development away from areas at highest risk"

A joint statement from Anglian Water, The Environment Agency and Essex C.C in January 2014 shows that there are surface water and foul water problems in the village. It seems there are possible solutions to these problems but the estimated cost is over two million pounds.

Despite these concerns Maldon D.C. are still including North Fambroge in their plan

Driving out of North Fambridge can take a 10 minute wait even when it is not rush hour due to the volume of traffic on B1010. With the proposed development in Burnham-on-Crouch and the proposed 75 dwellings in North Fambridge it will be even more difficult to get out.

Added to this we have to enter and leave North Fambridge on a hazardous bend waiting for an accident.

Maldon District Council knows these facts and seems to be proposing development without appraisal of safety issues.

- 2.5.** Please explain in the box below what change(s) you consider necessary to make the Maldon District LDP legally compliant and sound.
Please be as precise as possible. Please explain why this change will make the Maldon District LDP legally compliant and sound. It will be helpful if you are able to put forward any suggested revised wording of the policies or supporting text.
