FLOOD PLAIN NORTH FAMBRIDGE

In North Fambridge future building is planned up to the floodline on the Environment Agency Maps, and we all know this is rarely the case of where the water stops.

The only access in and out of the village passes through the floodplain therefore cutting the village off in the time of flooding which due to climate change and increased sea levels means that the flood plain will cover a greater not lesser area, because of this no development should take place, as it would be unsustainable.

Over the last 6 years we have received 3 severe flood warnings causing danger to life from the Environment Agency even though we do not live directly on the flood plain. This is a sign that needs to be taken into account in future decisions.

**2.5 Please explain in the box below what change(s) you consider necessary to make the Maldon District LDP legally compliant and sound. Please be as precise as possible. Please explain why this change will make the Maldon District LDP legally compliant and sound. It will be helpful if you are able to put forward any suggested revised wording of the policies or supporting text.**

If the box is not big enough for your comments, please attach another page marked appropriately.

If any future development takes place it should be located on much higher ground north of the B1010.

The National Planning Policy Framework states development should avoid increased vulnerability and avoid direct developing in high risk areas.
