Dear Andrea

Comments on the Further Modifications to Policy S2 in Relation To Reserves Sites

We write on behalf of our clients Pigeon Land. We support the aim of the further modifications to Policy S2 in relation to Reserve Sites which is to introduce a mechanism to review the plan rather than to rely on reserve sites.

We question whether the comments in the final sentence of paragraph 2.33 of the Councils suggested amendments are required. This states that the review of the plan will have regard to available infrastructure and its delivery. The availability of infrastructure would have to be assessed in any plan review in order for it to be sound. A plan review may be carried out some time into the future, and so should be based on the infrastructure opportunities and constraints identified at the time.

Yours sincerely

A handwritten signature in blue ink, appearing to read "DA", is written over a faint blue circular stamp.
