Representation 007-5145-I2-123

Statement on Behalf of Aquila Maldon Limited (' AML')

In their submissions to the submitted plan AML raise significant concerns regarding the Soundness of Policy I2

The Inspector, via IED 06, also raises concerns.

The Council's response document CED10 addresses this issue and at Appendix 14 Ref 057 proposes the deletion of those elements of the policy which are central to AML's concerns. AML support this proposed modification.

Since our original submission as supplemented by this statement are considered to represent an adequate summary of our position AML no longer consider it necessary to be heard at the Examination on this topic.
