I am not against more houses being built as long as they are spaced properly, that provision for all needs are met adequately - that people are considered as people & not as mere numbers.

Please do something for young people - how can someone on a basic wage or above eg. £12 - 15,000 per year afford a rented home at £800 + before bills, food, car/transport insurance etc.? They will never ever learn to budget whilst living at home in relative comfort. What can we do for them? I am seriously worried about those who have poorly paid jobs

- their future is bleak - please do something to help them onwards.

**Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below [Please use **BLOCK CAPITALS**]**

I am just not sure that what is on the Draft LDP will really take place - that there will be cut backs in the services, water/sewage overboard, not enough parking because too many houses will be built on too small a space - leading to social problems - consider the bins situation - where will these be kept if so many homes are built too close together.

The number of cars per household increases all the time - what can be done about that? It not thought though there will be serious problems.

What about doctors? - more needed - these here already are over subscribed shops, schools - can the please take so many more students?

Thank you for taking the time to complete this questionnaire. Your comments are important and will be fully considered. Please see Maldon District Council's website for future information about the progress of the LDP.
