I wish to register my objection to the proposed development in Burnham.

Whilst I realise that development of some kind will happen over the next 15 years I believe that it should evolve naturally there by ensuring growth as,when & where.

With regard to Burnham there is no great demand for housing as proposed or industrial expansion. Burnham is located completely in the wrong place for over expansion.Any increase in population would mean an increase in commuter traffic.The roads into Burnham are current Inadequate whereby heavy goods vehicles cannot pass one other without stopping or going on footpaths.At certain times of the day traffic is queuing up Maldon Road to the school unable to turn onto Crouch Road.There is also the number of accidents that occur on the B1010. I have not even mentioned other lines of communication and facilities that would be affected.

In conclusion it is not just about building houses.
