Q13 The Council has produced an updated to support the Draft LDP which is available on the Council's website. Do you have any comments on this?

It is a very technical, "dry" document that seems as though it was written by urban planners for urban planners. I think it is totally unrealistic to expect an ordinary member of the public to read it and gain a comprehensive knowledge of what the key issues are. I did notice that there was a strong reference to avoidance of flooding resulting from the building of additional housing, and this does touch on one of my main concerns, ie, infrastructure development.

Q14 Do you wish to comment on the *proposals map* or any other policies in the Draft LDP?

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

As previously mentioned there is a lack of easily understandable detail of how issues affecting daily life are going to be managed. How will the roads be improved to cope with the additional traffic? How will the possible effects of flooding be managed? How will other services such as internet provision, mobile phone and television, radio and DAB reception be improved to cope with the additional usage? I know you have a big job on your hands, but trying to read through the supporting documentation for your proposals (Sustainability Appraisal and Draft Proposals Map) left me with the feeling that far from trying to clarify the situation, you were trying to bamboozle me with a plethora of technical detail. There is also considerable reference in the proposal to "other as yet unidentified sites in other villages". The Draft Proposals Map seems to suggest that you have already identified preferred sites (I think).
