Q13 The Council has produced an updated to support the Draft LDP which is available on the Council's website. Do you have any comments on this?

Due to the rural nature car use will always be high, the local bus services are poor and expensive, also services that we did use have been cut (School Service D3) which shows the inability of District and County Council to think coherently. The road infrastructure need particular attention especially the link to Maldon / Fambridge which for a development sound of Maldon would provide the principal rail link. Road Widening on Purleigh Section and mini roundabouts at Fambridge Bends

Q14 Do you wish to comment on the *proposals map* or any other policies in the Draft LDP?

If so, please enter here which *Policy / Paragraph number(s)* you refer to **2a**

Please enter your comments in the box below

General The map doesn't really show any proposed change in village areas, 2a South Maldon the Park Area and Rail line & embankments should be conserved as habitat, perhaps consider a cycle / bridleway link with footbridge over bypass to encourage greener Transport. But generally boundaries for Development areas follow reasonable line

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

The LDP skates over important areas because they are class out of responsibility, the road infrastructure needs attention, particularly Junction improvements, as traffic will increase. The broadband provision is very poor with slow speeds and little bandwidth, this has to be improved to attract business and improve home working, which is increasing. The mobile signal is also very poor in some areas and capacity may also be affected.
