One of the most important concerns on A154 development is transport and road access. The map clearly defines roads, which in this area, still have a capacity to increase. Maldon and they bridge have 'more' roads around them, but they are not the most efficient. I would like to see a "possible" boost to the railway capacity, so the encouragement of business's to the area could improve on that and perhaps, employment.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below [Please use **BLOCK CAPITALS**]

We are, I believe, all aware of the flood plain from the Blackwater, but, sometime in the future, I have no doubt, an innovative plan will come up construction of above high level platforms, for selected areas which would give protection from flooding, without necessarily 'highlighting' the landscape.

Thank you for taking the time to complete this questionnaire. Your comments are important and will be fully considered. Please see Maldon District Council's website for future information about the progress of the LDP.

MALDEN D.C.  
TEAM "LDP"

Dear Sir/Madam

RE: COMMENTS FOR LDP.

I notice that, though this proposal is for 15 years, there will, I assume, be an insertion point, where needs, at that time, may have to be allocated.

One always hopes that these issues will not interfere with the spirit of the plan, even if minor alterations must be made.

No mention has been made of the possibility of "Travellers camps". We know this issue is usually handled at County level, but if a proposal is made by county to district, then would this type of insertion affect the LDP? and has the authority

also looked at the "impossible" <sup>2507</sup>  
Boris dream of the Thames Estuary  
airport.?

One hardly expects either of  
these issues to make a difference to  
the L.D.P.

But! I wonder if any body  
"then" thought Dale farm wouldn't  
be issue.

Yours faithfully
