Q13 **The Council has produced an updated Sustainability Appraisal to support the Draft LDP which is available on the Council's website. Do you have any comments on this? [Please use BLOCK CAPITALS]**

None of these properties are sustainable without virtual infrastructure. The road links are not poor for this amount of people. They are non east end. These areas are primarily rural and we want to keep it that way. The sewage system is running at capacity. Our village alone requires millions of pounds spent, just to keep up with the present capacity. All you will achieve is more road fatalities, higher crime figures and overcrowding. None of this is required.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below [Please use **BLOCK CAPITALS]**

I have personally spoken to Anglian Water who have told me that the cost of up-dating the sewage system in North Fambridge would run into millions of pounds. By all accounts it has not been updated for probably ten maybe one hundred years. A substantial amount of that money would have to come from Developers. The system now has passed breaking point and various roads within the Village are regularly flooded with raw sewage. Before you even consider your Housing Proposal you need to get facts and figures from Anglian Water and what they expect a Developer to pay. You would not get out of the starting blocks. There would be no room for profit from any Developer for the reason alone, any house are a non-starter
