

Penny

Dear Sir,

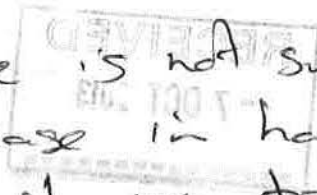

I wish to object to the planning proposal for 75 new houses being built in North Fairbridge.

The recent deaths on the B1012 by the Fairbridge bends highlights the danger this road holds for motorists. At times it is quite difficult to get onto this road from Fairbridge, more houses will only compound the problem.

The long standing sewerage & surface water problems that have beset Fairbridge are nowhere nearer being resolved. The addition of another 75 houses will overload an already struggling system.

7852

North Fambroge is not suitable
for a big increase in housing
& I therefore wish you to
reconsider.

Yours Sincerely
