The only public transport facility from Maldon to the rest of the UK, is the inadequate local bus service. With the proposed expansion of the population of MDC, consideration should be given to improving the existing transport system. The only direct road access to Maldon is the A414, which passes through Danbury, and the B1019 from Hatfield Peverel. Both of these roads are of poor quality and are incapable of handling the existing traffic before the addition of 4410 new homes, which will increase the population by approximately 11000 residents!

I propose that the B1019 be upgraded to an 'A' road with a junction to the A12 at Hatfield Peverel. Pressure should be applied to Essex CC for the A414 to bypass Danbury, an idea that has been in discussion for 30 years!

Secondly, thought should be given to the creation of a tramway system, using the old railway track from Heybridge to Witham station, with a transport interchange at Heybridge. This would give the residents of Maldon an alternative, and more efficient, connection to the rest of the UK! ___

Thank you for taking the time to complete this questionnaire. Your comments are important and will be fully considered. Please see Maldon District Council's website for future information about the progress of the LDP.
