Dear Sirs,

I wish to object to the Maldon and District Local Development scheme on the following grounds:-

Holloway Road in Heybridge floods every winter now, including the houses, if the fields to the side of Holloway Road, which are a flood plain, are concreted over, the flooding will only get worse, regardless of what flood relief schemes are put in place.

There is no rail station, bus station or easy access to 'A' class roads. As there is no work locally most people already have to travel out of the district to work. The extra 2830 houses just in Maldon and Heybridge will increase the vehicles trying to get into and out of the area by approximately 5600, as it must be assumed that almost every household will have at least 2 cars. How will the already overloaded roads cope?? They cannot now! At busy times it takes at least 20/30 minutes to get to the A12 using either Hatfield Peverel or Danbury routes, what will the extra cars do to these areas? I thought that the idea was to decrease carbon emissions - not increase them.

Regardless of what the traffic study suggests, the new residents of the Heybridge development will use Holloway Road, if only to get into Maldon, which by the way has totally inadequate parking now, never mind the extra that will be required by the increase in new residents.

Heybridge school is full. 1000 new homes in Heybridge will generate at least another 1000 to 2000 children, where are they supposed to go. There is no doctors surgery in Heybridge and the two surgeries in Maldon are full, so what is supposed to happen to the 2000 extra people that will require a doctor. Every time extra housing is built in the area we are told that these problems will be addressed by the council and developers - They haven't yet so why are we supposed to think that they will this time?

It seems to me that a better option would be to greatly reduce the number of new houses in Heybridge and Maldon and spread the same number between the many villages in the area, some of which already have rail access, where much smaller numbers can be accommodated.

Could it be that the developer already owns the land around Heybridge that is proposed, but not around the other villages - or am I just being cynical.
