- Q2 In order to ensure the LDP will meet the requirements set by Government, the Council has reviewed the amount of development required to meet identified housing and employment needs over the next 15 years. As a result, it has been necessary to increase the proposed number of new homes from 3,000 to 4,410 and to allocate 8.4 hectares of additional employment land.

- Q3 The main urban areas of Maldon, Heybridge and Burnham-on-Crouch are considered to be the most appropriate locations for new housing. Following consideration of alternative options which are detailed in the Draft LDP , the following distribution is now proposed.

Do you support the proposed distribution of new housing ?

Settlement	Total number of dwellings	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
Maldon	1,830	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Heybridge	1,000	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Burnham-On-Crouch	450	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- Q3 If you disagree, is there an alternative distribution of new housing which you would prefer?

Any and all new housing must be linked to transport and employment. In this case housing should be developed alongside existing rail links e.g. North Fambridge etc. Most people in Maldon Town were not previously consulted on the proposed distribution - certainly I was not (I was living on the High Street during 2012) and nor were my neighbours on Dorset Road. It would appear that local people were consulted based on the preference of particular elected members at the time (e.g. Althorne)

- Q4 It is proposed to develop two Garden Suburbs in Maldon and Heybridge which will be comprehensively planned to ensure the provision of a mix of housing, community and educational facilities, open space and new transport provision.

What evidence is there that "Development can be accommodated within the capacity of the Maldon and Heybridge road network and junctions"?

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

The current infrastructure in Maldon Town is inadequate. The proposed vast increase in the population will lead to severe problems with traffic and transport and inadequate facilities e.g. schools, doctors. A decision has clearly been made by some elected members to protect smaller towns and villages from development despite many of these having better transport (e.g. rail) options and capacity for growth (e.g. Althorne, Mayland) and without proper consultation with Maldon Town residents. That such a massive increase in the population of Maldon/Heybridge is being proposed with such a short period of consultation via several massive papers not previously seen by residents is appalling. There is no mandate for these developments from local people and no such large scale development should be considered without the infrastructure being in place. If these proposals go ahead they will result in unemployment and deprivation and an exodus of existing residents changing the town completely.
