Reducing the District's over dependence on the car is a myth with each new home bringing with it, on average, two cars. The public will not "see the light" and suddenly give up their cherished motor car for cycling and enviro friendly buses. The local road network is nearing capacity and better access to the A12 is long overdue. The two proposed garden suburbs will heap more traffic on to the existing routes, A414 and B1019, which are not suitable for the volume and weight of current traffic.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

Policy T2 Accessibility, states ; ... all development proposals must: 1) Be located where there is physical and environmental capacity to accommodate the type and amount of traffic generated, taking into account the cumulative impact of developments; This is clearly not the case in or around Heybridge and the proposed relief road will have no effect on traffic generated by 1000 new homes. It will relieve the centre of Heybridge from existing traffic and dump it on Langford's doorstep, at a dangerous bend at the old railway bridge. The money destined for this supposed relief road would be better off used to start a fund for a genuine relief road link from the district to the A12 to be built in the future. A new hospital on a green field site is proposed yet no site is stipulated. We already have a hospital in St Peters with a detailed brief submitted last year for development. Redeveloping the existing hospital is not mentioned in the draft LDP
