

## PART B

Reference is made to the appropriate Policy/Appendix numbers in the Draft LDP

- Q1 The overall vision is to improve the quality of life for people living and working in the District and to provide the new homes, jobs and infrastructure required to meet identified needs and support the local economy, whilst protecting the District's heritage and environment.

- Q2 In order to ensure the LDP will meet the requirements set by Government, the Council has reviewed the amount of development required to meet identified housing and employment needs over the next 15 years. As a result, it has been necessary to increase the proposed number of new homes from 3,000 to 4,410 and to allocate 8.4 hectares of additional employment land.

- Q3 The main urban areas of Maldon, Heybridge and Burnham-on-Crouch are considered to be the most appropriate locations for new housing. Following consideration of alternative options which are detailed in the Draft LDP , the following distribution is now proposed.

**Do you support the proposed distribution of new housing ?**

<b>Settlement</b>	<b>Total number of dwellings</b>	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
Maldon	1,830	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Heybridge	1,000	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Burnham-On-Crouch	450	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- Q3 If you disagree, is there an alternative distribution of new housing which you would prefer?

These proposals are too high for all three areas, in particular Burnham - 200 is a more appropriate number, with the probability of approval for other developments outside the LDP the increase in population is unsustainable, in my view, without a huge increase in infrastructure. The solution would be an increase in numbers for Latchingdon, with an increase in size and amenities, paid for in part by developers, this would benefit the whole district, not least by providing a much needed by-pass.

- Q4 It is proposed to develop two Garden Suburbs in Maldon and Heybridge which will be comprehensively planned to ensure the provision of a mix of housing, community and educational facilities, open space and new transport provision.

Whilst the need for small scale development in Burnham is obvious the quality of life of those existing residents must be taken on board - an increase of up to 2,000 new residents would change the town completely. There is little obvious prospect of increased employment in the town and job losses at Bradwell must be taken into account, the existing business park has vacant units already with others are available throughout the marshes. The main road has major 'pinch points' with queues often forming behind large vehicles negotiating the bends. All three proposed sites are outside the existing shopping areas - I fear new residents would need to work and consequently shop out of town - there would be no benefit to existing traders. Latchingdon as a large village has so many possibilities; Certainly room for 1,000 houses, a vital by-pass and improved road links, supermarket, extra amenities, perhaps even the hospital - space is available for a new eastern hub for the entire peninsular.
