

## PART B

Reference is made to the appropriate Policy/Appendix numbers in the Draft LDP

- Q1 The overall vision is to improve the quality of life for people living and working in the District and to provide the new homes, jobs and infrastructure required to meet identified needs and support the local economy, whilst protecting the District's heritage and environment.

- Q2 In order to ensure the LDP will meet the requirements set by Government, the Council has reviewed the amount of development required to meet identified housing and employment needs over the next 15 years. As a result, it has been necessary to increase the proposed number of new homes from 3,000 to 4,410 and to allocate 8.4 hectares of additional employment land.

- Q3 The main urban areas of Maldon, Heybridge and Burnham-on-Crouch are considered to be the most appropriate locations for new housing. Following consideration of alternative options which are detailed in the Draft LDP , the following distribution is now proposed.

**Do you support the proposed distribution of new housing ?**

<b>Settlement</b>	<b>Total number of dwellings</b>	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
Maldon	1,830	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Heybridge	1,000	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Burnham-On-Crouch	450	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- Q3 If you disagree, is there an alternative distribution of new housing which you would prefer?

I think that latchingdon should be reconsidered for an increased provision. It is relatively close to transport links at north fambridge and althorne for the train, it lies in an area where people could consider ormiston, william de ferrers and the plume as secondary options and a significant development should mean better transport. heybridge is likely to have a significant flood implication if such a large swathe of ground is concreted over - heybridge floods even now.

- Q4 It is proposed to develop two Garden Suburbs in Maldon and Heybridge which will be comprehensively planned to ensure the provision of a mix of housing, community and educational facilities, open space and new transport provision.

Q13 The Council has produced an updated to support the Draft LDP which is available on the Council's website. Do you have any comments on this?

the council could put more emphasis on sustainable transport initiatives by at least putting in place a target for planning application contributions. the council could have a much stronger stance on ecological enhancement for new developments and should set a target. An aim is to reduce the number of properties at risk of flooding. considerable development in heybridge, burnham and north fambridge goes against this. i strongly recommend slow development in these areas to test the flood concerns

Q14 Do you wish to comment on the *proposals map* or any other policies in the Draft LDP?

I object to the council trying to "formalise" and allocate pitches through the LDP which have been developed contrary to permissions. The traveller population in lea lane is very large compared to the settled population and despite planning objections continues to increase apace. It does not seem reasonable that the traveller community should be such a large percentage of the overall area and I would recommend that the council consider "capping" development as a percentage of local population

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

I have attended consultations and read all the attached documents. It remains unclear to me that the projections for population growth link with a need for increased dwellings. I would like the council to reconsider the impact of the aging population and the need for supported/residential/nursing care for this group based on current usage rather than individual dwellings and then to extrapolate to future projections. I have young children who use a range of the local sporting facilities, including swimming, rugby and cricket at drapers farm. It is already nearing capacity. I can see nothing in the proposals to support the growth that would be required in these clubs to support families from an additional 2000 homes in the local area. This LDP could be the opportunity to actively support a truly green and sustainable development - but key targets for this have been omitted. The council should ensure LEA and NHS/LA and CCG commitment prior to awarding any permission for houses.
