

PART B

Reference is made to the appropriate Policy/Appendix numbers in the Draft LDP

- Q1 The overall vision is to improve the quality of life for people living and working in the District and to provide the new homes, jobs and infrastructure required to meet identified needs and support the local economy, whilst protecting the District's heritage and environment.

	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>

- Q2 In order to ensure the LDP will meet the requirements set by Government, the Council has reviewed the amount of development required to meet identified housing and employment needs over the next 15 years. As a result, it has been necessary to increase the proposed number of new homes from 3,000 to 4,410 and to allocate 8.4 hectares of additional employment land.

	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>

- Q3 The main urban areas of Maldon, Heybridge and Burnham-on-Crouch are considered to be the most appropriate locations for new housing. Following consideration of alternative options which are detailed in the Draft LDP , the following distribution is now proposed.

Do you support the proposed distribution of new housing ?

Settlement	Total number of dwellings	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
Maldon	1,830	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Heybridge	1,000	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Burnham-On-Crouch	450	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

- Q3 If you disagree, is there an alternative distribution of new housing which you would prefer?

S2(j) in Burnham-on-Crouch is not suitable due to difficulties of access along Marsh Road. The "front loading" of the identified locations within Burnham-on-Crouch would be likely to exacerbate the issues identified elsewhere such as those relating to Primary School Places and Early Years Provision as it would be likely to result in peaking of demand. A more even spread over the years of the plan would alleviate this and would help assimilation of the new population into the community

- Q4 It is proposed to develop two Garden Suburbs in Maldon and Heybridge which will be comprehensively planned to ensure the provision of a mix of housing, community and educational facilities, open space and new transport provision.

Q13 The Council has produced an updated to support the Draft LDP which is available on the Council's website. Do you have any comments on this?

A lot of the assessments are qualitative. More quantitative information is desirable

Q14 Do you wish to comment on the *proposals map* or any other policies in the Draft LDP?

If so, please enter here which *Policy / Paragraph number(s)* you refer to **S1 D2, D4**

Please enter your comments in the box below

S1(7) "Enable and adapt to" does not make sense. Did you mean "Mitigate and adapt to" D2 Given the difficulty in retrofitting rather than building in from the start it would be appropriate to seek a higher level than Code Level 3. Some information should be included regarding targets in the individual elements of the code. Given the recent IPCC report increased attention should be given to measures that will reduce greenhouse gas emissions. D4 This should be more positive about on-shore wind

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

While the word "sustainability" appears frequently throughout the document often the treatment appears somewhat superficial. The balance between the social, economic and environmental aspects of sustainability appears to favour the economic to the detriment of the environmental. Insufficient attention is given to the likely increasing impacts of Climate Change as the century progresses. What is built during the plan period will remain in occupation throughout the 21st century so much more attention needs to be given to the reduction of greenhouse gas emissions and resilience to the projected impacts of climate change particularly sea level rise. Petrol/diesel prices are likely to continue to increase in real terms and the effect of this on the ability/willingness of Burnham residents to travel outside of the community for employment needs greater attention.
