Maldon - 1500, Heybridge-1000, Burnham on Crouch- 200, Southminster - 150, North Fambridge - 200, Latchingdon- 230. Maldon & Heybridge already have the infrastructure to absorb this increase. Southminster & Latchingdon would benefit from the investment in these areas including schools, shops & businesses. North Fambridge has the closest access to major trunk roads (A130, A12, A127 & A13 & town access e.g South Woodham Ferrers & Maldon. B on Crouch is NOT URBAN, it's Rural & saturated!

Q13 The Council has produced an updated to support the Draft LDP which is available on the Council's website. Do you have any comments on this?

Levels of tourism will not increase if the areas become too built up, therefore it is essential to spread the impacts rather than concentrate in a few areas. The appraisal does not reflect any improvement in employment prospects in the area, as we all know, businesses do not want to be isolated out in the Dengie/ Burnham on crouch. They need good road links. Burnham does not offer this. Investment in Latchingdon, Southminster & North Fambridge will provide village shops and small businesses.

Q14 Do you wish to comment on the *proposals map* or any other policies in the Draft LDP?

If so, please enter here which *Policy / Paragraph number(s)* you refer to **Proposals map**

S2(h) is the most logical site for development as it allows easy access out of Burnham without the need to negate the main junctions in the town and increase traffic flow through the town which is already congested. If we must have any development it needs to stay in the West for the reason already stated. development toward the east is piling up issues in the future, the closer you build toward the flood risk areas. Build away from the flood risk and toward the major roadlinks.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

The whole distribution of any new housing needs review if you are to " maintain & enhance the vibrancy and vitality of our towns and villages" ( to quote your own statement!) Concentrating the bulk of housing into the already saturated larger towns e.g Maldon, Heybridge and Burnham on Crouch just exacerbates the current issues which already need to be overcome (e.g. transport links, infrastructure, overcrowding, quality of life). Also Your own policies have recognised the increase in the aging population so why are you trying to develop more business property? Those aged over 85 is expected to double, but these people are not of working age! Businesses will not want to come out to the isolation of Burnham, they want to be near transport links, close to the trunk roads. You need to apply some logic here. You say your plan is to improve the quality of life for those who live and work here, but your plan actually contradicts that, E.g increased traffic, pollution, loss of countryside.
