- Q2 In order to ensure the LDP will meet the requirements set by Government, the Council has reviewed the amount of development required to meet identified housing and employment needs over the next 15 years. As a result, it has been necessary to increase the proposed number of new homes from 3,000 to 4,410 and to allocate 8.4 hectares of additional employment land.

- Q3 The main urban areas of Maldon, Heybridge and Burnham-on-Crouch are considered to be the most appropriate locations for new housing. Following consideration of alternative options which are detailed in the Draft LDP , the following distribution is now proposed.

Do you support the proposed distribution of new housing ?

Settlement	Total number of dwellings	<i>Strongly Agree</i>	<i>Agree</i>	<i>No Opinion</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
Maldon	1,830	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Heybridge	1,000	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Burnham-On-Crouch	450	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

- Q3 If you disagree, is there an alternative distribution of new housing which you would prefer?

If the figures for the amount of housing needed in the district are correct I think it is wrong to put the houses in such large concentraions (which only benefits the developers). A more acceptable solution to people I have asked is to have small growth areas spread around the villages of the district, this keeps villages alive with a good cross-section of ages, growth that allows schools to be maintained, infastucture to be gradually developed and prevents a concentration of social housing.

- Q4 It is proposed to develop two Garden Suburbs in Maldon and Heybridge which will be comprehensively planned to ensure the provision of a mix of housing, community and educational facilities, open space and new transport provision.

In the North West, Heybridge area proposed areas are prone to flooding it will take major work to prevent flooding after more land is covered with concrete. I understand that it will also need a new sewerage infrastructure for Heybridge as it is only just coping at present. It seems an awful waste of good farm land to develop it in such large areas in Heybridge and to the south of Maldon, I am sure that there are pockets of brown field sites fit for development around the district.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

Going on the past poor performance of Maldon District Council with regards to the development of the infrastructure to keep in line with housing growth, I do not have any faith that a development of this size will be handled any better. I understand that there will not be any growth in car parking provision in the town to allow the shops to survive; it is expected that people will use cycle ways and public transport. Maldon needs the provision of a Community Hospital with a limited A & E facility to serve this rural district; please abandon the poorly thought through idea that the provision of a well-being centre will provide what is needed for this large district. Maldon will not be a place of choice to live in the future if this planning approach comes to fruition, it will become a dormitory without adequate roads, infrastructure and facilities to serve it.
