We as a business are very concerned as to the impact proposed housing in Maldon south will have on existing storm drainage through Limebrook to where it discharges into the Blackwater south of Northey Island. On at least four occasions in the last 12 months our farm has experienced flooding of up to 18 inches of water along the course of Limebrook. I strongly feel that any proposed development should come with a requirement for an upgrade of the existing drainage and sluice system. It does not say much for the sustainability of any new housing provision if I lose agricultural land and thus income due to increased housing. An engineer from the environment Agency recently stated that it would be very challenging if not impossible to grow crops on the affected parts of the farm if the drainage was not upgraded in line with increased housing. He pointed out that there were no plans to upgrade the drainage. Why should my business suffer whilst other landowners and developers p rofit.
