Without major improvements to the public transport network, residents' dependence on the use of the private motor car will not diminish. Many houses in the District are distant from existing public transport routes. More thought should be put into the local road network, particularly for vehicles travelling to the A12. The proposed 900 homes to the north of Heybridge would increase traffic through Langford. Concern raised about junction where proposed Heybridge relief road meets Langford Road.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

New hospital: The Parish Council would prefer a new hospital built on the existing St. Peter's site rather than on a green field site which has not as yet been identified. Rural housing allocation: Development must be carefully controlled so that numbers of houses remain proportionate to the size of the existing villages. Multiple developments in or around the same village must be avoided. The Parish Council supports small scale growth in Langford.

Infrastructure: Concern that the District's infrastructure is not sufficient for the quantity of new homes planned, particularly roads.
