i think the number of houses built should be limited to 199 or less, spread over several sites. also should be built evenly over a 15 year period. important given the dengie's remote location. increased population will need employment! building a huge commuter hub isnt sustainable, and there are towns to the west of burnham with better access to roads/rail and employment. in summary the indicated site sizes are too big and not sustainable

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

the amount of affordable housing should be limited to 20%. Burwest site should retain its "coastal zone special landscape area". additional roads/sewerage/medical facilities/sewerage and surface water drainage should be put in place before building work starts. Simply building more employment zones won't encourage business to locate in Burnham. There are already many empty units/land due to the remote location of the Dengie. significant financial incentives would be required to attract business to locate in the town. any inclusion of a supermarket out of town would lead to the further demise of the high street (an essential part of any town's well being). this should be avoided at all costs.
