The concentration of the development around Wycke Meadow is certain to have a considerable negative effect on the existing wildlife reserve at the meadow and along the railway embankment, an area I know and love. The area is already heavily used by dog walkers, not all being considerate of their pets mess or activities (I speak as a responsible dog owner!) and public use of the area would be bound to increase massively with associated problems of litter etc and general degradation of the area.

Q15 If you wish to make any other comments on the Draft LDP, enter your comments in the box below

I struggle to see how more "development" with more people and traffic can possibly "improve" my quality of life in the Maldon! Whilst I acknowledge, even if I don't fully understand or comprehend the need for the amount of development being considered, I do realise some continued development is inevitable. My main concern is for the wildlife of the area, Maldon being a rich and diverse mix of habitats which must be protected at all costs whilst maintaining the rural appearance of the area. Encroachment outside the south ring road on a considerable scale is going to erode the rural feel and impact on the wildlife and environment. I would like to see further use made of already developed areas within Maldon and Heybridge for housing and industry before we start building more new premises. Can I please that the landscaping of any new developments is done in sympathy for the local native wildlife using native trees etc in consultation with local and national wildlife bodies.
