Dear Sir/Madam,

I wish to add my views to others in Burnham on Crouch who oppose the current plans for development in our town on the following grounds:-

1. It is a travesty to use greenfield sites for housing. To do so would be to damage the environment for present and future residents. Once the green fields are spoiled in this way they are spoiled for ever.
2. The roads cannot adequately support present levels of traffic. Evidence of this can be seen in the high number of fatalities that occur. An increase in traffic due to housing development will put more lives in danger and should be avoided at all cost.
3. Further increases in noise, atmospheric and light pollution degrade the quality of life for all residents.
4. I consider that Burnham has already reached a very high population for its size and if more houses are needed there should be no more than 200 and greenfield sites should not be used at all.

Yours faithfully,

[REDACTED]
